

A BEAUTIFUL, BEAUTIFUL WORLD

Video: <https://www.primarygames.com/videos/category/science/the-earth-song/>

Such a beautiful, such a beautiful, such a beautiful, BEAUTIFUL WORLD!

I'm the Earth and for it's worth

25 thousand miles is my girth

I've got more than seven billion people living on me
all across my amazing geography.

Check out my **mountains, valleys, trees** so tall,
and I've got **lakes, rivers** and **waterfalls**,
volcanoes, craters, swamps with alligators.

Tropical islands in my equator.

The North and South poles have lots of ice
only polar bears say "This weather is nice!"

I've got so much land, yeah, I'm so immense.

I've got seven...(seven)... seven different continents!

North and South America, Europe, Asia, Africa, Antarctica and Australia.

But the biggest thing everybody can see

Is that I've got a lot of **water** all over me!

I've got oceans with lobsters, whales, otters.

Three quarters of me is covered in water.

I orbit the Sun (I'm so hot)- that's his line,
and the Moon orbits me.

I'm filled with life, both big and small.

THE MOST BEAUTIFUL PLANET OF ALL!
